

FARO Announces Fourth Quarter and Full Year 2024 Financial Results

February 24, 2025

- Q4 revenue of \$93.5 million, at the upper end of our guidance range
- Q4 net loss of \$1.0 million, or \$(0.05) per share; Non-GAAP EPS of \$0.50, at the high end of guidance range
- Significant improvement in cash flow, which results in positive Q4 and FY2024 cash flow from operations

LAKE MARY, Fla., Feb. 24, 2025 (GLOBE NEWSWIRE) -- FARO® Technologies, Inc. (Nasdaq: FARO), a global leader in 4D digital reality solutions, today announced its financial results for the fourth quarter and full year ended December 31, 2024.

"We are proud to conclude the year with strong momentum, surpassing targets across all of our metrics in the fourth quarter and achieving a decade-high adjusted EBITDA margin of 18% along with our fifth consecutive quarter of positive operating cash flow," said Peter Lau, President & Chief Executive Officer. "2024 was a milestone year for FARO, marking our first double-digit adjusted EBITDA margin since 2018 and the first time in over a decade to exceed 11% adjusted EBITDA margins for the full year, driving a \$29.6 million year-over-year increase in operating cash flow. As we enter 2025, we are confident that our multi-phase strategy, focused on operational excellence, organic growth, and strategic investments, positions us for sustained market leadership and long-term value creation for our shareholders."

Fourth Quarter 2024 Financial Summary

- Total sales of \$93.5 million, down 5% year over year
- Gross margin of 56.7%, compared to 50.9% in the prior year period
- Non-GAAP gross margin of 57.4%, compared to 51.3% in the prior year period
- Operating expenses of \$48.4 million, compared to \$48.9 million in the prior year period
- Non-GAAP operating expenses of \$39.9 million, compared to \$41.3 million in the prior year period
- Net loss of \$1.0 million, or \$(0.05) per share compared to net income of \$1.6 million, or \$0.08 per share in the prior year period
- Non-GAAP net income of \$9.5 million, or \$0.50 per share compared to net income of \$5.8 million, or \$0.31 per share in the prior year period
- EBITDA of \$8.2 million, or 8.8% of total sales compared to \$3.7 million, or 3.7% of total sales in the prior year period
- Adjusted EBITDA of \$16.7 million, or 17.9% of total sales compared to \$11.9 million, or 12.1% of total sales in the prior year period

Non-GAAP Financial Measures

This press release contains information about our financial results that are not presented in accordance with U.S. generally accepted accounting principles ("GAAP"). These non-GAAP financial measures, including non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP income from operations, non-GAAP net income and non-GAAP net income per share, exclude the impact of purchase accounting intangible amortization expense and fair value adjustments, stock-based compensation, restructuring and other charges, and other tax adjustments, and are provided to enhance investors' overall understanding of our historical operations and financial performance.

In addition, we present EBITDA, which is calculated as net income (loss) before interest (income) expense, net, income tax benefit (expense) and depreciation and amortization and fair value adjustments, and Adjusted EBITDA, which is calculated as EBITDA, excluding other (income) expense, net, stock-based compensation, and restructuring and other charges, as measures of our operating profitability. The most directly comparable GAAP measure to EBITDA and Adjusted EBITDA is net income (loss). We also present Adjusted EBITDA margin, which is calculated as Adjusted EBITDA as a percent of total sales.

In our fourth quarter reporting, we have included non-GAAP total sales on a constant currency basis. The most directly comparable GAAP measure to total sales on a constant currency basis is total sales. We believe constant currency information is useful in analyzing underlying trends in our business and the commercial performance of our products by eliminating the impact of highly volatile fluctuations in foreign currency markets and allows for period-to-period comparisons of our performance. For simplicity, we may elect to omit this information in future periods if we determine a lack of material impact. To present this information, current period performance for entities reporting in currencies other than U.S. dollars are converted to U.S. dollars at the exchange rate in effect during the last day of the prior comparable period.

Management believes that these non-GAAP financial measures provide investors with relevant period-to-period comparisons of our core operations using the same methodology that management employs in its review of the Company's operating results. These financial measures are not recognized terms under GAAP and should not be considered in isolation or as a substitute for a measure of financial performance prepared in accordance with GAAP.

These non-GAAP financial measures have limitations that should be considered before using these measures to evaluate a company's financial performance. These non-GAAP financial measures, as presented, may not be comparable to similarly titled measures of other companies due to varying methods of calculation. The financial statement tables that accompany this press release include a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks and uncertainties, such as statements about the outlook for the first quarter of 2024, demand for and customer acceptance of FARO's products, FARO's product development and product launches, FARO's growth, strategic and restructuring plans and initiatives, including but not limited to the additional restructuring charges expected to be incurred in connection with our restructuring and integration plans and the timing and amount of cost savings and other benefits expected to be realized from the restructuring and integration plans and other strategic initiatives, and FARO's growth potential and profitability. Statements that are not historical facts or that describe the Company's plans, objectives, projections, expectations, assumptions, strategies, or goals are forward-looking statements. In addition, words such as "is," "will" and similar expressions or discussions of FARO's plans or other intentions identify forward-looking statements. Forward-looking statements are not guarantees of future performance and are subject to various known and unknown risks, uncertainties, and other factors that may cause actual results, performances, or achievements to differ materially from future results, performances, or achievements expressed or implied by such forward-looking statements. Consequently, undue reliance should not be placed on these forward-looking statements.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to:

- the Company's ability to realize the intended benefits of its undertaking to transition to a company that is reorganized around functions to improve the efficiency of its sales organization and to improve operational effectiveness;
- the Company's inability to successfully execute its strategic plan and our 2024 Restructuring Plan, including but not limited to additional impairment charges including existing leasehold improvements and/or higher than expected severance costs and exit costs, and its inability to realize the expected benefits of such plans;
- the effect of any changes in our executive management team and the loss of any of our executive officers or other key personnel, which may be impacted by factors such as our inability to competitively address inflationary pressures on employee compensation and flexibility in employee work arrangements, including the impact of our 2025 "return to office" policy;
- the outcome of any litigation to which the Company is or may become a party;
- loss of future government sales;
- potential impacts on customer and supplier relationships and the Company's reputation;
- development by others of new or improved products, processes or technologies that make the Company's products less competitive or obsolete;

- the Company's inability to maintain its technological advantage by developing new products and enhancing its existing products;
- declines or other adverse changes, or lack of improvement, in industries that the Company serves or the domestic and international economies in the regions of the world where the Company operates and other general economic, business, and financial conditions;
- the effect of general economic and financial market conditions, including in response to public health concerns;
- assumptions regarding the Company's financial condition or future financial performance may be incorrect;
- the impact of fluctuations in foreign exchange rates and inflation rates; and
- other risks and uncertainties discussed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 that will be filed with the SEC following this earnings release, and in other SEC filings.

Forward-looking statements in this release represent the Company's judgment as of the date of this release. The Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise, unless otherwise required by law.

⁽¹⁾ We exclude stock-based compensation, which is non-cash, from the non-GAAP financial measures because the Company believes that such exclusion provides a better comparison of results of ongoing operations for current and future periods with such results from past periods.

⁽²⁾ On February 14, 2020, our Board of Directors approved a global restructuring plan (the "Restructuring Plan"), which is intended to support our strategic plan in an effort to improve operating performance and ensure that we are appropriately structured and resourced to deliver increased and sustainable value to our shareholders and customers. On February 7, 2023, our Board of Directors approved an integration plan (the "Integration Plan"), which is intended to streamline and simplify operations, particularly around our recent acquisitions and the resulting redundant operations and offerings. The Restructuring and other costs primarily consist of severance and related benefits. Substantially all of our planned activities under the Restructuring Plan and the Integration Plan are complete. On November 1, 2024, our Board of Directors approved a restructuring plan (the "2024 Restructuring Plan"), which is intended to support its strategic plan in an effort to improve operating performance and streamline and simplify operations, particularly around our redundant operations and underperforming countries primarily driven by economic and demand challenges in the manufacturing and construction sectors.

⁽³⁾ The Income tax effect of non-GAAP adjustments is calculated by applying a statutory tax rate to Non-GAAP adjustments, including Stock-based compensation, Restructuring and other costs, non-recurring Inventory reserve charges, and Purchase accounting intangible amortization and fair value adjustments. In addition, when estimating our Non-GAAP income tax rate, we exclude the impact of items that impact our reported income tax rate that we do not believe are representative of our ongoing operating results, including the impact of valuation allowances we are currently recording in certain jurisdictions and certain discrete items such as adjustments to uncertain tax position reserves, as these items are difficult to predict and can impact our effective income tax rate. Specifically, Other tax adjustments during the twelve months ended December 31, 2024 were comprised of \$2.4 million related to the impact of valuation allowance adjustments, \$1.7 million related to equity based compensation book to tax differences, and \$4.0 million related to the impact of Income tax effect of non-GAAP adjustments and the effect of deferred adjustments, Global intangible low-taxed income ("GILTI") and Prepaid tax on intercompany profit. In 2023, Other tax adjustments during the twelve months ended December 31, 2023 were comprised of \$9.2 million related to the impact of valuation allowance adjustments, \$2.1 million related to equity based compensation book to tax differences, and \$4.7 million related to the impact of Income tax effect of non-GAAP adjustments and the effect of deferred adjustments, Global intangible low-taxed income ("GILTI") and Prepaid tax on intercompany profit.

⁽¹⁾ On February 14, 2020, our Board of Directors approved a global restructuring plan (the "Restructuring Plan"), which is intended to support our strategic plan in an effort to improve operating performance and ensure that we are appropriately structured and resourced to deliver increased and sustainable value to our shareholders and customers. On February 7, 2023, our Board of Directors approved an integration plan (the "Integration Plan"), which is intended to streamline and simplify operations, particularly around our recent acquisitions and the resulting redundant operations and offerings. The Restructuring and other costs primarily consist of severance and related benefits. Substantially all of our planned activities under the Restructuring Plan and the Integration Plan are complete. On November 1, 2024, our Board of Directors approved a restructuring plan (the "2024 Restructuring Plan"), which is intended to support its strategic plan in an effort to improve operating performance and streamline and simplify operations, particularly around our redundant operations and underperforming countries primarily driven by economic and demand challenges in the manufacturing and construction sectors.

⁽²⁾ Calculated as Adjusted EBITDA as a percentage of total sales.

⁽²⁾ We compare the change in the sales from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for assessing how our underlying business performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars at the exchange rate in effect during the last day of the prior comparable period, rather than the actual exchange rates in effect during the respective periods.
