If you experience problems listening to the broadcast, send an email to [webmaster@vdat.com](mailto:webmaster@vdat.com).)

FARO Technologies, Inc. and its international subsidiaries are pioneers and market leaders in the computer-aided manufacturing measurement (CMM) market, which is the final frontier of the computer-aided design (CAD) and computer-aided manufacturing (CAM) revolution. FARO's product line includes portable, 3D measurement equipment, a broad range of CAD-based inspection software for portable and fixed-base coordinate measurement machines, as well as factory-level statistical process control (SPC), and manufacturing quality consulting services. The Company's products play a key role in the worldwide trend toward CAD-based total quality management for shortened production cycles and for the reduction in scrap and rework. FARO's products are used worldwide by a wide variety of manufacturing companies, both large and small. News and information are available at the Company's Web site at <http://www.faro.com>.
