FARO Technologies Invites You to Join Its Fourth Quarter 2006 Conference Call on the Web

February 23, 2007

LAKE MARY, Fla., Feb. 23 /PRNewswire-FirstCall/ -- FARO Technologies, Inc. (Nasdaq: FARO) announced that after the market closes on February 28, 2007, it will release its financial results for the fourth quarter ended December 31, 2006. In conjunction with FARO's Fourth Quarter earnings release, you are invited to listen to its conference call that will be broadcast live over the Internet on March 1, 2007, at 11:00 a.m. ET with Jay Freeland, President and Co-CEO, and Keith Bair, CFO, of FARO Technologies.

What: FARO Technologies Fourth Quarter Earnings Release Conference Call

When: Thursday, March 1, 2007, at 11:00 a.m. ET

Where/How: <http://phx.corporate-ir.net/phoenix.zhtml?p=irol-eventDetails&c=99722&eventID=1488233> (Some web sites register the address as two lines, inexplicably add an extra space and/or omit the link segment after the line break. If necessary, please copy and paste both URL segments and delete any extra spaces.)

Alternately, one may access the call via FARO's web site www.faro.com, then click "Investor Relations", "Conference Calls", then click the relevant date.

Dial-in Numbers are 800.869.6581 (domestic) or 785.830.7984 (international). Conference ID: FARO

If you are unable to participate during the live web cast, the call will be archived on www.faro.com. Conference Call Replay is also available through June 1, 2007, by calling 800.753.5479 (domestic) and 402.220.2675 (international). No code is required.

FARO Technologies, Inc. designs, develops, and markets portable, computerized measurement devices and software used to create digital models - or to perform evaluation and analysis against an existing model - for anything requiring highly detailed 3-D measurements, including part and assembly inspection, factory planning and asset documentation, as well as specialized applications ranging from surveying, recreating accident sites and crime scenes to digitally preserving historical sites.

FARO's technology increases productivity by dramatically reducing the amount of on-site measuring time, and the various industry-specific software packages enable users to process and present their results quickly and more effectively.
