FARO 2010 Investor and Financial Analyst Conference

June 28, 2010

LAKE MARY, Fla., June 28, 2010 /PRNewswire via COMTEX/ --

FARO Technologies, Inc. (Nasdaq: FARO) announced today they will be hosting an Investor and Financial Analyst Conference on Friday, November 5, 2010 at their Global Headquarters in Lake Mary, FL.

As the pioneer in portable computer-aided measurement, FARO is always applying unique knowledge and understanding of their clients' business goals to develop more advanced 3D measurement and imaging technology. FARO empowers their clients to exceed the demands placed upon them by applying the latest advances in technology to make their industry-leading product offering more accurate, reliable, and easier to use. They would like to offer individuals the opportunity to learn more about their distinctive business.

The Investor and Financial Analyst Conference will provide attendees with an exclusive opportunity to gain insight into the company, products, strategies, and long-term financial and strategic targets. FARO is completely focused on simplifying their customers' work, while championing customers' innovation and their own, so customers and their businesses can be more prosperous.

For conference information and to secure your registration, please visit <http://www.advancingmeasurement.com/content/investorday>. Should you have any questions regarding the conference, you may send an email to investor.conference@faro.com, or contact Nancy Setteducati at 407-333-9911.

About FARO

FARO develops and markets computer-aided coordinate measurement and imaging devices and software. Portable equipment from FARO permits high-precision 3D measurement, imaging and comparison of parts and compound structures within production and quality assurance processes. The devices are used for inspecting components and assemblies, production planning, 3D documentation, as well as for investigation and reconstruction of accident sites or crime scenes. They are also employed to generate digital scans of historic sites.

Worldwide, approximately 10,000 customers are operating more than 20,000 installations of FARO's systems. The Company's global headquarters is located in Lake Mary, Fla., its European head office in Stuttgart, Germany and its Asia/Pacific head office in Singapore. FARO has branches in Canada, Mexico, Germany, United Kingdom, France, Spain, Italy, Poland, Netherlands, India, China, Singapore, Malaysia, Vietnam, Thailand and Japan.
