FARO Reports Second Quarter 2013 Results

July 30, 2013

LAKE MARY, Fla., July 30, 2013 /PRNewswire/ -- FARO Technologies, Inc. (NASDAQ: FARO) today announced results for the second quarter ended June 29, 2013. Sales in the second quarter of 2013 increased to \$68.3 million, from \$66.8 million in the second quarter of 2012. The Company reported net income of \$3.6 million, or \$0.21 per share, in the second quarter of 2013, compared to \$4.7 million, or \$0.28 per share, in the second quarter of 2012.

(Logo: http://photos.prnewswire.com/prnh/20110415/MM84316LOGO)

New order bookings for the second quarter of 2013 were \$66.7 million, a decrease of 6.1% from \$71.0 million in the second quarter of 2012.

Gross margin for the second quarter of 2013 was 54.0%, compared to 55.5% in the second quarter of 2012. Gross margins were slightly lower primarily due to lower average selling prices for certain metrology products.

The Company's operating margin for the second quarter decreased to 8.0%, compared to 10.3% in the second quarter of 2012. Operating expenses increased due to staffing costs and related expenses of \$1.8 million primarily in our sales and marketing and research and development organizations, offset by lower legal and professional fees of approximately \$1.0 million.

"Our results in the second quarter were impacted by ongoing economic softness in Europe and Asia. While interest in FARO products remains strong, many customers have deferred purchase decisions in light of economic uncertainty," stated Jay Freeland, FARO's President and CEO. "The Americas region continues to show signs of strength, generating double-digit sales growth in the quarter and our product development pipeline remains robust. To capitalize on anticipated improvement in our markets, we added staff to our sales and research and development organizations, which adversely impacted our second quarter results but positions the Company well looking forward. We expect the second half of 2013 should provide an opportunity for improvement driven by the global increase in new sales account managers. However, if the overall macroeconomic environment remains stagnant for the rest of 2013, our markets may remain under some pressure."

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks and uncertainties, such as statements about demand for its products, anticipated improvement in the markets in which it operates, its product development pipeline, its ability to capitalize on market conditions, and its future operating results and financial condition. Statements that are not historical facts or that describe the Company's plans, objectives, projections, expectations, assumptions, strategies, or goals are forward-looking statements. In addition, words such as "intend," "believe," "will," "expect" and similar expressions or discussions of FARO's plans or other intentions identify forward-looking statements. Forward-looking statements are not guarantees of future performance and are subject to various known and unknown risks, uncertainties, and other factors that may cause actual results, performances, or achievements to differ materially from future results, performances, or achievements expressed or implied by such forward-looking statements. Consequently, undue reliance should not be placed on these forward-looking statements.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to:

- development by others of new or improved products, processes or technologies that make the Company's products obsolete or less competitive;
- the cyclical nature of the industries of the Company's customers and material adverse changes in customers' access to liquidity and capital;
- declines or other adverse changes, or lack of improvement, in industries that the Company serves or the domestic and international economies in the regions of the world where the Company operates and other general economic, business, and financing conditions;
- risks associated with international operations, such as fluctuations in currency exchange rates, difficulties in staffing and managing foreign operations, political and economic instability, compliance with import and export regulations, and the burdens and potential exposure of complying with a wide variety of U.S. and foreign laws and labor practices;
- other risks detailed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Forward-looking statements in this release represent the Company's judgment as of the date of this release. The Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

About FARO

FARO is the world's most trusted source for 3D measurement technology. The Company develops and markets computer-aided measurement and imaging devices and software. Technology from FARO permits high-precision 3D measurement, imaging and comparison of parts and complex structures within production and quality assurance processes. The devices are used for inspecting components and assemblies, rapid prototyping, documenting large volume spaces or structures in 3D, surveying and construction, as well as for investigation and reconstruction of accident sites or crime scenes.

Approximately 15,000 customers are operating more than 30,000 installations of FARO's systems, worldwide. The Company's global headquarters is located in Lake Mary, FL; its European regional headquarters in Stuttgart, Germany; and its Asia/Pacific regional headquarters in Singapore. FARO has offices in Brazil, Mexico, United Kingdom, France, Spain, Italy, Poland, Netherlands, India, China, Malaysia, Vietnam, Thailand and Japan.
