About FARO

FARO is the world's most trusted source in 3D measurement, imaging and realization technology. The Company develops and markets computer-aided measurement and imaging devices and software. Technology from FARO permits high-precision 3D measurement, imaging and comparison of parts and complex structures within production and quality assurance processes. The devices are used for inspecting components and assemblies, rapid prototyping, documenting large volume spaces or structures in 3D, surveying and construction, as well as for investigation and reconstruction of accident sites or crime scenes.

Approximately 15,000 customers are operating more than 30,000 installations of FARO's systems, worldwide. The Company's global headquarters is located in Lake Mary, FL; its European regional headquarters in Stuttgart, Germany; and its Asia/Pacific regional headquarters in Singapore. FARO has offices in Brazil, Mexico, United Kingdom, France, Spain, Italy, Netherlands, Switzerland, Portugal, India, China, Malaysia, Vietnam, Thailand, South Korea and Japan.
